PERSONAL SUMMARY

Highly motivated certified Junior Cybersecurity Analyst with a validated foundation in offensive/defensive security principles, holding the **CompTIA Security+** certification and core knowledge in risk mitigation, threat management and operational security. Eager to leverage hands-on Ethical Hacking and strong soft skills—developed through customer-facing experience—to contribute immediately to security monitoring and vulnerability analysis within a dynamic IT environment.

TECHNICAL SKILLS

- **Languages:** Visual Basic, JavaScript, Python, HTML, CSS, Web Development.
- **Security & OS:** Linux, Offensive Security, Cloud Security, Security Operations, Ethical Hacking/Penetration Testing
- **Tools/Concepts:** Web Development, Debugging, Nmap, Scapy

SOFT SKILLS

- Proactive Problem-Solving, Communication (Technical Reporting), Conflict resolution, Mentorship/Training, Attention to Detail/Compliance (from Mr. Price Sport).

EDUCATION

National Certificate Vocational (2021-2023)
NCV Level 4 in information Technology and Computer Science

Relevant Modules: Algorithmics, Systems Programming, Data Communication and Networking, System Analysis and Design

CompTIA Security+ (September 2025)

Cisco Certified Ethical Hacker (July 2025)

AI Fundamentals with IBM SkillsBuild (July 2025)

Cybersecurity Essentials

CYBER SECURITY PROJECTS & HANDS-ON

EXPERIENCE

- Cybersecurity Hands-on Labs (Ethical Hacking Focus)
- Cybersecurity Skill Development: Actively engaged in hand-on learning on the Hack The Box (HTB) platform, demonstrating proficiency in simulated real-world penetration testing and vulnerability exploitation scenarios.
 - Continuous learning: Dedicated researcher of emerging security trends, new offensive/defensive techniques, and foundational networking concepts to maintain up-to-date industry knowledge.
 - Applied offensive security methodologies in simulated environments to perform vulnerability analysis and network discovery using open-source tools, including **Nmap** and **Scapy**
 - Practiced secure configuration analysis on virtual machines to understand common weaknesses and implement hardening strategies (directly supporting Security+ principles).

WORK EXPERIENCE

Store Associate | Mr Price Sport | Start feb/2024 – End jan/2025

- **Security & Compliance:** Maintained meticulous attention to detail in inventory management and cash handling procedures, directly translating to an ability to adhere to strict security policies and compliance standards.
- **Proactive Problem-Solving:** Solved high-pressure customer and operational issues independently, demonstrating the critical thinking required for quick identification and mitigation during a security incident.
- **Leadership & Communication:** Successfully trained and mentored junior staff members, proving effective communication skills essential for reporting technical issues to non-technical stakeholders.
